Cracking the Genetic Code Reflection Questions

1. Would you get your genome mapped out?

2. If there was a genetic disorder in your family history, would you get your/your child’s genome mapped? Why or why not?

3. Who should have access to your “genetic profile”? (Employers, Insurance Companies, Family, Everyone...)

4. You decided to get your genome mapped out, do you truly believe that your genome is confidential?

5. List several risks and benefits you believe are important to address on this issue of gene based medicine.
