

Introducing...

*BuyBack Class
Hands-on Introduction to OpenBook English*

*Tuesday February 7 or Tuesday February 14
3:00 -4:00 PM*

White Rock Elementary Computer Lab

OpenBook provides remedial phonics, reading comprehension, writing, and language activities for all levels of students - with special supports for English learners. The software is easy to use, includes specific assignments as well as open ended instructional tools, and is an powerful resource to use with your English learners.

This introductory session will show you how to enroll students, assign curriculum, access student records, and offer suggestions for effective ways to use OpenBook with students.

Please sign up at GoSignMeUp. Follow the link to Core Curriculum and English Language Learners or type OpenBook into the Search field.
