FCUSD Bring Your Own Device (BYOD) Policy

Purpose
This policy defines the requirements for student and staff use of personally owned mobile devices (laptops, tablets, smart phones and other wireless devices) on the BYOD Wireless Network.

The District recognizes that mobile devices are a valuable tool in education and conducting school and District related business. It is the Education Technology and Information Systems (ETIS) Department’s policy to protect and maintain safety, security and integrity of our systems while using these tools.

Acceptable Use of BYOD Wireless Network:

All FCUSD students and staff members may use a personal mobile and computing devices for educational and District business use.

All students and staff of the FCUSD BYOD wireless network are expected to conduct their use of the network and Internet, as has been previously agreed to and signed in the District Acceptable Use Policy.

Internet content used through the District’s BYOD wireless network is filtered for appropriate content as other District networks and stipulated in District Board Policy.

By using the BYOD Wireless Network, all users agree to the application of this District policy.

Please be aware that all student users are subject to individual school site rules and regulations regarding the use of personal cell phones and electronic devices.
Support Services and Disclaimers

- ETIS will only provide support related to the functionality of the District Wireless Network.

- ETIS will **not support and repair personal devices**. All FCUSD users will need to work with the manufacturer or vendor of each personal device for additional support.

- FCUSD assumes no responsibility and shall not be liable for any loss of data, damage, or viruses/malware that may infect your device on account of your access to, or use of the public wireless connection.

- FCUSD assumes no responsibility or liability for physical damage to, or theft of your device.

- FCUSD cannot guarantee that your hardware or software will work with the District's wireless connection.

- If you have problems accessing the Internet over the wireless connection, our staff cannot assist in making changes to the user's network settings or perform any troubleshooting on your device. You should refer to the owner's manual for your device or other support services, offered by your device manufacturer.

Procedure

To use the FCUSD BYOD Wireless Network:

- Identify and select the wireless SSID:
  - FCUSD-STAFF
  - FCUSD-STUDENT

- When prompted, enter District issued user-name and password
