2019-2020 AP Human Geography Summer Assignments

Thank you for choosing to be a part of AP Human Geography for the 2019-2020 school year. The curriculum for this two-semester course consists of topics drawn from seven interrelated units of study outlined in the AP Human Geography Course Description published by the College Board.

Upon of entering an AP class it is important have a certain level of background knowledge and skills. The following tasks will start you on your journey toward success this year. Both assignments are due the first day of school.

**Assignment I: Outline Maps**

**Directions:** Label the world outline maps with the features listed below each map to build an understanding of both the political and physical geography among the various world regions. Coloring each map is optional (except for maps 13 and 14).

<table>
<thead>

<td>Map 12 – Oceania</td>
</tr>
<tr>
<td>Maps 13 – World Regions A Big Picture</td>
<td>Maps 14 – World Regions A Closer Look</td>
</tr>
</tbody>
</table>

Each map has a list of countries, cities and/or regions to label. The list and corresponding numbers will serve as the key. Label each element with the correct number in the correct location. Countries are listed in regular font and cities are listed in italics.

Over the course of the year there will be series of map quizzes, so it will be important for you to keep your map packet for review purposes. It is essential that you work throughout the year to maintain a mental map of the world and the placement of states (countries), cities and natural phenomena.

Studying for map quizzes requires time and preparation. Prior to each map quiz I will hand out blank maps to assist in your preparation. The first step is to find each feature and label blank outline maps. Taking the time to color the maps is also an effective way to retain the necessary information.
