**COURSE DESCRIPTION:**

French IB SL Year 2 is the second half of the two-year Language B course designed to further students’ study of the target language and culture, to develop mastery of the target language, and to enable them to communicate effectively in a range of situations.

This course is intended for students who have chosen to further develop their proficiency in all four language skills: listening, speaking, reading, and writing and to prepare them for the Internal and External assessments at the end of the second year of the course. The Internal Assessment is a one-on-one speaking assessment conducted with the teacher and recorded for moderation by IB. The External assessments are the Paper 1 and Paper 2 exams. Paper 1 focuses on the productive skill of writing, in response to a given prompt. Paper 2 assesses the receptive skills - listening and reading.

The IB Language B syllabus comprises three interconnected areas: language, themes and texts. Students will have the opportunity to develop the ability to communicate successfully in the target language, as evidenced through receptive, productive and interactive communicative skills across a range of contexts and purposes.
Students study material related to five themes as set by the IB Language B subject guide. The five prescribed themes of Identities, Experiences, Human Ingenuity, Social Organization, and Sharing the Planet are addressed equally over the two years of IB Language B SL course. Students will be able to understand and produce a variety of text types in the target language.

The course guides the students to explore culture and events in both contemporary and historical settings and to examine products and practices of the target culture with regard to their perspectives. The course emphasizes the use of the target language for active communication.

**RELEVANT STANDARDS AND FRAMEWORKS, CONTENT/PROGRAM SPECIFIC STANDARDS:**

**Link to Common Core Standards (if applicable):**
Educational standards describe what students should know and be able to do in each subject in each grade. In California, the State Board of Education decides on the standards for all students, from kindergarten through high school.

**Link to Framework (if applicable):**
Curriculum frameworks provide guidance for implementing the content standards adopted by the State Board of Education (SBE). Frameworks are developed by the Instructional Quality Commission, formerly known as the Curriculum Development and Supplemental Materials Commission, which also reviews and recommends textbooks and other instructional materials to be adopted by the SBE.

**Link to Subject Area Content Standards (if applicable):**
Content standards were designed to encourage the highest achievement of every student, by defining the knowledge, concepts, and skills that students should acquire at each grade level.
Link to Program Content Area Standards (if applicable):
Program Content Area Standards applies to programs such as International Baccalaureate, Advanced Placement, Career and Technical Education, etc.
This course will follow the prescribed content and assessment as outlined by the IB Language B Subject Guide.
