**18 YEAR-OLD STUDENT/ADULT RIGHTS & RESPONSIBILITIES NOTICE**

Students legally become adults upon reaching their 18th birthdays and, as such, must take increased responsibility for their actions. In matters concerning the school, these students are allowed to clear their absences with the attendance office and to receive all grade reports directly rather than having them sent to their parents.

The Folsom Cordova Unified School District wishes to accord all eighteen-year old students the rights and responsibilities due them as adults. The schools believe, however, that students and parents must communicate clearly about this issue so that there will be no confusion regarding which of them the school will communicate with in matters concerning the student. It is important that the enclosed form be returned to the assistant principal's office within five (5) days indicating both parent and student choices in the appropriate sections below.
