

## Intersections

26. Most drivers and pedestrians know from their own experiences that intersection safety is a big problem. In a short essay describe why intersections are the highest risk places for drivers. Use terms from the chapter and cite statistics to support your answer. (3 factors)

27. Identify and explain at least three things a driver can do to lower their risk at an intersection. Explain your answer.

28. Describe the steps you should take when you come to an uncontrolled railroad crossing. (bullets are fine).
