

\*Dear Parents, please take a minute to review our universal rules in Kindergarten with your child. We will discuss/implement these rules in class during the first week of school.

### Logical Consequences:

– Based on the studies of “Setting Limits in the Classroom”

1. Be a good friend and good citizen always!
2. Misuse it–lose it (this goes for any objects, privileges, etc.)
3. Wasting time/ not trying the assignment – make it up at free choice
4. Disrupting learning (talking, calling out, etc.)– separate from group in a stage 1 timeout (5 min. to the side of the class)
5. Disrespectful actions or continual disruption of learning– separate from group in a stage 2 timeout (leave classroom) and notify parents
6. Not following behavior rules or classroom procedures– practice skills at choice time
