Subject Area: World Languages

Proposed Grade Level(s): 9-12

Course Length: 1 year

Grading: A-F

Number of Credits: 5/semester

COURSE DESCRIPTION:

Mandarin 1 is a year-long Mandarin language course that is designed for students from Grade 9-12 who have none or very little prior experience in the language. The course aims to develop basic language skills of listening, speaking, reading and writing. Students' learning activities will involve two fundamental ideas: learning in cultural context and learning through performance. Through the use of text, video, audio, and the workbook program, each student has the opportunity to gain basic mastery of Chinese language skills and competence that fit the IB learner profile.

GENERAL GOALS/ESSENTIAL QUESTIONS:

Upon successful completion of this course, the student will be able to:

- Have a foundational knowledge of the Chinese phonetic system (pinyin) and develop their ability in speaking Mandarin with correct pronunciation and intonation
- Gain language skills in communicating accurately and appropriately in Chinese for common everyday purposes
- Be aware of many aspects of Chinese culture imbedded in the Chinese language
- Understand the basic Chinese grammatical concepts
- Know the basic structures of Chinese characters and develop their knowledge and ability in Chinese character writing

Essential Questions:

1. How can I effectively communicate in response to spoken, written, and visual text?
2. What can I learn about my own language and culture from the study of others?
3. How do I use my knowledge of language and culture to enrich my community and broaden my opportunities?

CCSS READING COMPONENT:

Reading is an active skill. Students must take an active role in the reading process, constantly inferring, deducing, anticipating, guessing, predicting, checking and asking themselves questions about the text. Students read simplified texts written by native speakers. As students progress, readings come from original texts, such as realia, ads, poetry, and narratives that are introduced with reading strategies and are combined with achievable comprehension tasks.

CCSSWRITING COMPONENT:

Writing assignments in Level 1 are designed to guide students carefully through the pre-writing, writing, and editing processes. The aim of writing assignments is to facilitate proficient use of vocabulary and grammatical structures in a personalized context.

CCSS SPEAKING AND LISTENING COMPONENT:

Oral proficiency activities combine all the elements in the units of study - functions, topics, vocabulary, and structures - in the context of role-playing, partner and group activities. These activities give students a chance to integrate what they have learned in real communication with others.
