BRIEF COURSE DESCRIPTION:

The curriculum for this course meets the California Standards for English Language Arts in reading, writing, written and oral English language conventions, and listening and speaking for the eighth grade. In addition, students are accelerated to explore standards for subsequent grade levels. They are given opportunities to delve more deeply into literature searching for complex themes and relationships and to support their assertions with textual references. This course requires students to understand and apply in writing and oral discussion the academic language of the discipline.

GENERAL GOALS/PURPOSES:

Honors English Language Arts at the eighth grade level is designed to prepare students with skills and strategies that will allow them to be successful in honors and/or advanced placement classes. This course focuses on active engagement with the text including a firm understanding of the author's purpose. Students are required to analyze, identify, define, explain, and critique fictional and non-fictional text, and primary source documents and to support their assertions in well-organized written and oral presentations.

STUDENT READING COMPONENT:

Word origins:

Students use knowledge of word origins and word relationships, using historical and literary context clues to determine meaning of specialized vocabulary in other disciplines.

Reading Comprehension:

Students describe and connect the essential ideas, arguments, and perspectives of the text by using their knowledge of text structure, organization, and purpose.

Literary response and Analysis: Students read and respond to historically or culturally significant works that reflect and enhance their studies in history and social science.

STUDENT WRITING COMPONENT:

Writing:

Students will write clear, coherent, and focused essays. The writing exhibits awareness of audience and purpose. Students will read and speak with a command of standard English conventions appropriate to this grade level.

STUDENT ORAL COMPONENT:

Listening and Speaking:

Students deliver focused, coherent presentations that convey ideas clearly and relate to the background and interests of the audience.

DETAILED UNITS OF INSTRUCTION:

See attached appendix with descriptions of the units of instruction including how the CORE curriculum will be differentiated for honors students. Differentiation elements include:

Acceleration:

Students will explore selected standards, representing more complex and in-depth analysis of text, found in subsequent grades.

Enrichment:

Students will be given opportunities to research in-depth topics related to English Language Arts, such as author or genre studies, or topics related to other curricular areas, and to bring their own novel but well supported interpretations to their research.

Independent Reading:

Students will be exposed to reading material representing various genres and points of view. Students will be encouraged to read widely and to begin to develop a sense of their own personal reading preferences, and biases. Students will be asked to expand their reading beyond their current personal tastes.
